to our...

WALK IN FLOOR OVER EVENT

*Standard floor from \$17/sq ft installed**

*Heavy Duty floor from \$27/sq ft installed**

For a limited time, give your walk in coolers and freezers the star treatment with a brand new floor! Our four layer floor over process will keep your floor sealed and prevent leaks and ice build up that can damage your unit. Our treadbrite floors are extremely durable and resist warping and denting to prolong the life of your unit. Our heavy duty floor is *four times thicker* than our standard floor and is designed especially for keg coolers or for units with heavy traffic.

Take advantage of incredible savings on a new floor for your walk-in cooler/freezer. You can save hundreds of dollars and greatly extend the life of your unit. Our process ensures your unit will have minimal down time, usually between 3 and 6 hours and work will be set up around YOUR schedule.

Our mission is to treat each and every customer like a super star by exceeding your expectations with professional service, quality products and outstanding customer service. Call us today at 407-574-3587 for more information and to request a FREE estimate!
